**NEW CPR Program
for Teachers and
School Staff!**

Introducing the American Heart Association K-12 CPR Program

We bring the training to you!

We set up training at your facility after school, evenings, or even weekends! This is usually a \$60 course. Special pricing for educators and staff is \$45/person (includes 2 yr card, book and class). Online courses with skills sessions are also possible.

Call us to design a program that meets your training needs.
